Previous Crop and Variety planted:

Field Location: (w/ sketch)

Sitio/Purok:

Barangay:

Municipality:

Province:

I understand that:

1. My field will not be accepted for certification if it is now roughed to meet the standard for field certification;
2. It is my responsibility to notify the Deputized Seed Inspector for the final field inspections e.g. 15-20 days after transplanting for preliminary field inspection and the final inspection starts when the crop is at full heading stage or at least twenty (20) days before harvest;
3. Re-cleaning and drying must be supervised by the Deputized Seed Inspector; and
4. The government is not obliged to purchase my certified seeds.
